

EXECUTIVE DIRECTORS' MESSAGE

From the Desk of the Executive Director

Jeanine Santelli, PhD, RN, AGPCNP-BC, FAAN

Executive Director

It is indeed an honor and a privilege to serve as the Executive Director of ANA-New York. I am grateful for the confidence that the ANA-NY Board has placed in me to serve the nursing professionals of our state. As your new ED, I understand that there are several things that must be done. I must first listen to what both members and non-members are saying about what ANA-NY does and does not have to offer. To do this I will be connecting with nurses around the state. I will have a very steep learning curve this year and will be covering a lot of ground. I look forward to meeting as many of our members and future members as possible. If you see me out and about, be sure to stop by and say hello.

I am humbled to be following in the footsteps of my dear friend, Karen Ballard. She, and our staff, created a phenomenal first edition of this newsletter. We hope that you enjoy this issue and find it both informative and interesting.
